WHY UBUNTU?

UBUNTUVERSE

UBUNTU EAT

Hi, we know you maybe curious why we call ourselves Ubuntu? If you're thinking we've anything to do with Ubuntu software, no that's not the case. The only common factor is that we both are inspired by the same story. As you place your order and while we are preparing kindelicious food for you, you can use this time to know more about us, our philosophy, our WHY!

UBUNTU

UBUNTU is a very nice story from Africa...
The motivation behind the Ubuntu culture in Africa...
An Anthropologist proposed a game to the African tribal children...

He placed a basket of sweets near a tree
And made the children stand 100 meters away.
Then announced that whoever reaches first would get all the sweets in the basket.
When he said 'ready steady go!'...

Do you know what these children did?
They all held each other's hands, ran together towards the tree, divided the sweets equally among themselves, ate the sweets and enjoyed it.
When the Anthropologist asked them why they did so,
They answered.... "Ubuntu."

Which meant -
'How can one be happy when the others are sad?'

Ubuntu in their language means -

"I am because we are"
A strong message for all generations.

Let all of us always have this attitude and spread happiness wherever we go.

Let's have a "Ubuntu" Life...

I AM BECAUSE WE ARE
